Dial these numbers only in a real emergency. For non-emergency calls, dial the numbers shown in the "Administrative Numbers" listing for the proper agency.

Local Emergency Numbers

Print clearly those emergency numbers that apply to you. Doing this may save precious seconds during an emergency.

For the quickest and best possible service in an emergency, dial the emergency numbers that apply to you.

Or dial "O" (Operator). Tell the operator the exact location including the community name, street number and the type of help needed. Stay at the telephone.

SPECIAL NOTICE TO ALL OUR CUSTOMERS

Court rulings and new federal regulations have dramatically changed the operations of Wisconsin Bell and the way we do business with you.

We at Wisconsin Bell understand these changes could be confusing to many of our customers, especially this first year. Therefore, we have made an extra effort to explain many of these new policies and practices in this updated Customer guide section of your local directory.
For your convenience, new information is indicated by a ★.

★ Repair Service

Local Service
Wisconsin Bell is responsible for maintaining your local line service (dial tone). If you have a service problem and have determined that it is not caused by the telephone equipment, call **743-9266.**

Telephone Set Repair
If the problem is caused by the telephone set or other type of telephone equipment, follow the instructions on the warranty or contact the equipment supplier. For a list of telephone equipment suppliers, see your Yellow Pages. This applies to all residence and business customers.

Long Distance
If you are experiencing trouble with your long distance service, call your supplier. For a list of long distance suppliers, see your Yellow Pages under "Telephone Companies."

Maintenance of Service Charge
When you request a repair visit and we send a repair person to your home or business and determine that Wisconsin Bell's lines are working properly and the trouble is in the telephone or equipment, this equipment will not be repaired. You will be subject to a service charge for the repair person's visit.

Exchange Service
For residence and business service, a premises work charge is applied in 1/10 hour increments. The initial 1/10 hour increment is $15.15; each additional 1/10 hour increment or portion thereof is $5.45.

- ★ **For Repair of Local Service Call — 743-9266**

Services for Disabled Customers

How to reach us at Wisconsin Bell

Telecommunications Center for Disabled Customers
All voice contacts
1 800 242-9694 (Toll Free)

Telecommunications services for the deaf (TDD/TTY)
1 800 242-9393* (Toll Free)

Operator Assistance
1 800 855-1155* (Toll Free)

Services for disabled customers

Special services for persons with disabilities
Wisconsin Bell provides telecommunications services for customers with certain types of motion, vision, speech and hearing disabilities. If you or someone you know could benefit from these special services call the Telecommunications Center for Disabled Customers at the number listed above. The solution may be provided by special services or equipment we have available. There is no charge for the consultation to help solve your specific problem.

You may also obtain equipment from a supplier of your choice.

Exemptions from Directory Assistance charges

Directory Assistance charges do not apply to:
Calls placed by customers certified by their physicians to be physically or visually disabled and unable to use the telephone directory. To find out if you qualify for an exemption, call the Telecommunications Center for Disabled Customers.

Services for TDD customers only

What is TDD service?
TDD's (telecommunications devices for the deaf) are typewriter-like devices that permit hearing- or speech-impaired persons to communicate via the telephone lines with other TDD users. The phone receiver fits into an acoustic coupler on the typewriter-like devices and permits the users to type messages back and forth.

How to reach us on your TDD service
- To establish or change your TDD service or for billing and other questions about your TDD account, contact the Telecommunications Center for Disabled Customers, dial (TDD only) **1 800 242-9393* (Toll Free)**

Repair Service
- During regular business hours, dial: (TDD only) **1 800 242-9393* (Toll Free)**
- All other times, dial: (TDD only) **1 800 855-1155* (Toll Free)**

*Teletype Number.

**

Operator Assistance for TDD users
If you use TDD and need help placing local, long distance, collect, Calling Card, third number or other Operator-assisted calls, or if you get cut off on a call, you can reach TDD/TTY Operator Services any time by dialing the toll-free number (TDD only) **1 800 855-1155* (Toll Free)**

Directory listings for TDD users
A TDD-user can have a listing in the phone book to indicate a TDD and can have the phone number appear with or without a street address.

Examples:

Smith, J J	TDD Only—**555-8888**
Smith, J J	TDD-Voice—**555-8888**
	or
Smith, J J 123 Allen Rd	TDD Only—**555-8888**
Smith, J J 123 Allen Rd	TDD-Voice—**555-8888**

The phrase "TDD only" preceeding a telephone listing indicates the telephone is answered using a Telecommunications Device for the Deaf and communication can take place over the line only via another TDD. If a listing includes "TDD-Voice," both TDD-users and speaking/hearing people can communicate over the line.

Special rates for long distance calls within your LATA*
If you or someone in your household is hearing- or speech-impaired and uses a TDD, your home phone service may be eligible for special rates on long distance calls that you dial yourself to telephone numbers within your LATA.*** Calls placed during the day are billed at the evening rates and calls placed in the evening are charged at the night rate.

To qualify for the discounts, a physician, audiologist, speech pathologist or a representative of an appropriate state agency must sign a form that you need the TDD to communicate over the phone line. Forms are available from the Center. Call toll-free (TDD only) **1 800 242-9393.*** Wisconsin Bell will notify you of receipt of your form by contacting you by TDD.

*Teletype Number.

**Used with permission of the National Association of the Deaf

***Local Access Transport Area (See page 27)

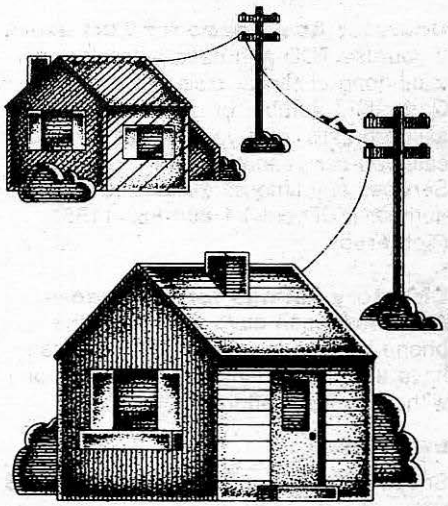
SERVICES AND EQUIPMENT

★Establishing Wisconsin Bell service at your home

Call your Service Representative
Your Service Representative will help you with orders for local monthly calling services, optional services (including Touch-Tone Service and Custom Calling if they are available in your area), home wiring services, Wisconsin Bell Calling Cards, directories, and directory listings. They will also answer other questions you have about the services we provide.

Information needed for your order
- Complete street address (apartment number if applicable).
- The registration numbers of the telephone sets or other telephone equipment you will be using.
- A description of the types of modular outlets, if any, at your new address (see page 14).
- The type of basic or optional monthly service you want.
- How you would like your directory listing to appear. A listing may include the names of any two persons who share the same address and telephone number.
- Information about your previous telephone service such as the telephone number and location.
- Other credit information, including employment. (No telephone credit information is given out to other businesses).

Wisconsin Bell provides access to the telephone network
We offer a variety of basic and optional monthly calling plans to provide you with access to the telephone network. Types of home telephone service and optional services available at additional charges are described on page 8.



Customers provide their telephone sets
To complete your telephone service, you will need to provide the telephone sets or other telephone equipment for your home. If you do not already have your own telephones, contact a retail supplier of your choice. Telephone equipment is a competitive business and, therefore, we cannot recommend particular suppliers to you. For more information, look in the Yellow Pages under "Telephone Equipment & Systems — Dealers."

Telephone sets for customers with multi-party service
Special conditions apply for equipment used for multi-party service. Call your Service Representative for details.

Deposits

A deposit may be required
We don't usually ask our residence customers to pay a deposit, but there are exceptions. We do require a deposit or some guarantee of payment from customers who owe money to us for services rendered within the past six years. In some cases we may also request a deposit if we have reason to believe that a person is trying to defraud us or is clearly unable to pay for service.

Deposit alternatives
Residence customers who have unpaid telephone bills for previous service may arrange a deferred payment plan, paying an initial amount and the balance in regular installments. Customers must pay their regular monthly telephone bills in addition to the installments.

Letter of guarantee instead of deposit
You have the option of providing the telephone company with a letter from a person or firm with established telephone credit willing to guarantee payment of your bills. This can be used instead of a deposit.

Deposit refunds
All accounts with deposits are reviewed every 12 months. We refund deposits with interest when satisfactory credit has been established. Interest is paid from the date the money is deposited to the date it is returned or applied to a final bill, whichever is first. Effective May 1, 1982, interest will be paid on deposits at the rate of 8% simple interest per annum.

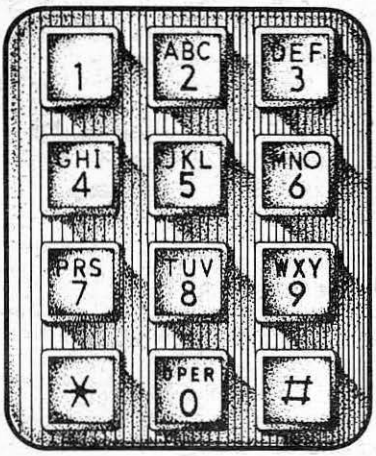
An advance payment may be required
When you order new service, you may be required to make an advance payment to cover the installation charges. If you make an advance payment, it will be credited on your first telephone bill.

Prompt payment means good credit
Your credit standing with Wisconsin Bell is determined by your promptness in paying your telephone bill. Your bill payment is due on or before the date indicated on the bill.

continued►

No charge to permanently disconnect service
Call your Service Representative to disconnect your telephone service. If you wish, monthly charges can be stopped the day you call.

How to get credit for loss of service
If you have reported that you are unable to make or receive calls and you are out of service for 24 hours or more, you may be entitled to a credit on your bill for the local service charges for the period of the outage. Call your Service Representative.



Types of home telephone service — Sturgeon Bay

The following are basic phone services in the Sturgeon Bay exchange:

Four-Party unmeasured (offered only in the exchange zone rate area) . . . **$9.50/mo.**

One-party line — measured . . . $7.80/mo.
This private line allows you to make 20 outgoing local calls each month without additional charges. You are then charged 17 cents for every call after the first 20. If you make few local calls each month, it may be less expensive than a private line-unmeasured service.

One-party line measured . . . $10.50/mo.
This private line allows you to make 60 outgoing local calls each month without additional charges. You are then charged 9 cents for every call after the first 60.

Two-party line — unmeasured . . . $12.50/mo.
This party line allows you to make all of your local calls for the same charge each month.

One-party line — unmeasured . . . $15.60/mo.
This private line allows you to make all of your local calls for the same charge each month.

One Party — Zero Allowance Service . . . $3.50/mo.
This private line allows a party to receive calls: however outgoing calls will be billed at 24 cents each.

Rates shown on this page were in effect as of January 1, 1984, are regulated by the Public Service Commission of Wisconsin (PSCW) and are subject to change.

The following Zone rates for service beyond the Base Rate Area are to be added to the basic rates shown, as appropriate.

Zone Differential Rates			
Class of Service	1-party	2-party	4-party
Zone 1	3.00	2.05	2.65
Zone 2	4.95	3.25	2.65
Zone 3	7.00	4.65	2.65

Rates shown on this page were in effect as of January 1, 1984, and are regulated by the Public Service Commission of Wisconsin (PSCW) and subject to change.

Charges to install and change your home telephone service

Service Connection
Service connection charges are one-time rates. Any of the following charges may apply depending on the type of service ordered. Higher charges apply if you request work to be done on weekends, holidays or after regular weekday working hours.

Service Order Charge
You are charged for the processing of your order.

New or additional central office lines . . . $28.00
Per customer request

Moving or changing existing service within your home . . . $15.00
Per customer request

Record changes . . . $9.00
Per customer request

Central Office Line Connection Charge . . . $7.05 — per line. This is the charge that applies for arranging an exchange line to provide service between the central office and the customer's premises.

Central Office Work Charge . . . $5.30 — per line. This is the charge that applies for work performed in the central office to change existing service.

Single Line Residence Service (And Multi-Party) For single line residence service (including multi-party), a time and materials based premises work charge is applied in 1/10 hour increments. The initial 1/10 hour increment is $15.15; each additional 1/10 hour increment or portion thereof is $5.45.

Jack Material Charge
A jack material charge of $2.50 is also applicable for each installed miniature modular jack.

continued►

Important information concerning residential and business inside wiring and jacks

The Public Service Commission of Wisconsin has authorized the company, effective January 1, 1982, to offer single-line residence and single-line business customers the option of providing their own inside telephone wire and jacks.

The following charges are in addition to the Operator-assisted charge:
Customer-dialed Calling Card Call — $.55
Operator-assisted station-to-station call — $1.55
Person-to-Person call — $3.15

Touch-Tone Line Service . . . $1.50/mo.

Rates shown on this page were in effect as of January 1, 1984, are regulated by the Public Service Commission of Wisconsin (PSCW) and are subject to change.

continued►

Instructions for Custom Calling Services

Call your Service Representative to see if Custom Calling Services are available in your area. There will be an additional monthly charge for each.

Call Forwarding

Lets you transfer your incoming calls to any telephone you can dial-direct without Operator assistance.

How to use it:

1. To forward calls from rotary telephones, dial 72 and wait approximately 5 seconds for dial tone. From touch-tone telephones, dial 72, then the # symbol; listen for dial tone.

2. Dial the number that will be accepting your calls. You will hear two short tones, then normal ringing. Call Forwarding is in effect when the party answers. At that time, you can tell them they will be receiving your calls.

3. If the line is busy, or there is no answer, hang up and repeat the first two steps. No answer is required to establish Call Forwarding on the second attempt.

4. To cancel Call Forwarding from rotary telephones, dial 73 and wait about 5 seconds for two beeps and dial tone. From touch-tone telephones, dial 73, then the # symbol. You will hear two beeps, then dial tone.

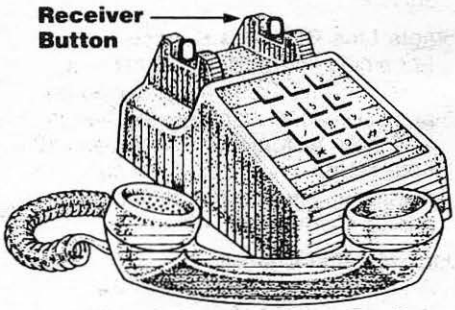
Notes:

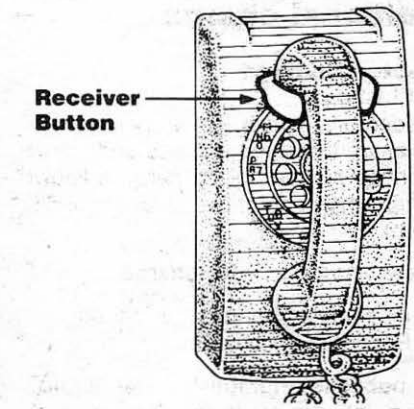
While your calls are being forwarded, your telephone will ring briefly each time your number is dialed. You cannot answer the calls, but the ring is a reminder than Call Forwarding is still in effect.

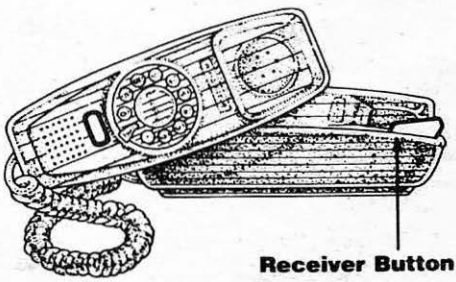
If you forward your calls outside your local calling area, you will be charged for any calls forwarded from your number to the distant number. For example, if you forward your calls to a number in California, the person calling you is charged for a call only to your number, but you are charged the rate from your number to the number in California.

While calls are being forwarded, you can still make outgoing calls.

Common Locations of Receiver Buttons







Instructions for Custom Calling Services

Call your Service Representative to see if Custom Calling Services are available in your area. There will be an additional monthly charge for each.

Call Waiting

Lets you know someone else is calling when you're using the telephone. You hear a beep tone. If you ignore the first beep, there will be a second one in ten seconds. The party calling you hears only the normal ringing.

How to use it:

1. If you hear a beep and want to end the first call, hang up. Your telephone will immediately ring with the second call.

2. If you want to "hold" the first call and answer the second call, press and release the receiver button (see illustration) quickly. The first call will be put on "hold" and you will be connected to the second call.

3. To return to the first call, press and release the receiver button again. You can switch back and forth between the two calls as often as you want.

Three-Way Calling

This service lets you add a third party to your existing conversation without Operator assistance.

Three-Way Calling can be used whether you have received or have placed the first call.

How to use it:

1. Press and release the receiver button to put your call on "hold." You will hear three beeps then dial tone.

2. Dial the third person's number. You can talk before including the original caller.

3. To begin the three-way call, press and release the receiver button. All three parties will be on the line. (If the line is busy or there's no answer, you can return to the original call by pressing and releasing the receiver button twice.)

Notes:

If the original party hangs up, you can add another third party by repeating steps 1, 2 & 3.

To disconnect the third party, press the receiver button twice. Your line is then free to add a different third party by repeating steps 1, 2 & 3.

All parties are disconnected when you hang up.

Speed Calling

This service lets you call frequently called numbers by dialing only one or two digits. Speed Calling is available in either 8 or 30 number capacities. These numbers can be either local or long distance.

To enter or change a Speed Calling list of 8 or 30 numbers:

1. Select a one-digit code (numbers 2 through 9) for Speed Calling-8. Select a two-digit code (numbers 20 through 49) for Speed Calling-30.

2. Dial 74 for Speed Calling-8. Dial 75 for Speed Calling-30. Listen for dial tone.

3. Dial the code you have selected and the complete telephone number it will represent. Be sure to dial the number as you would normally place the call including the Area Code if it's different from your own. Two beeps will confirm your entry.

4. To call numbers selected for Speed Calling, simply dial the one-or-two digit code you have selected. If you have touch-tone dialing press the "#" button to save additional time.

Note:

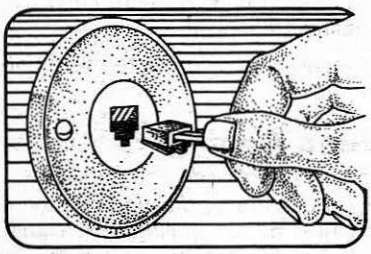
Keep a current list of your Speed Calling numbers.

continued►

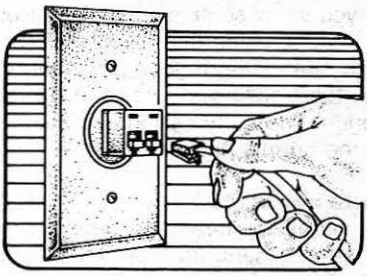
How to connect/disconnect your phones

Drawings 1 through 4 show standard wall sockets, or jacks, for modular telephone cords. To install, match the plug at the end of the cord with the jack, and insert. To disconnect, squeeze the clip on the plug and pull it out of the jack.

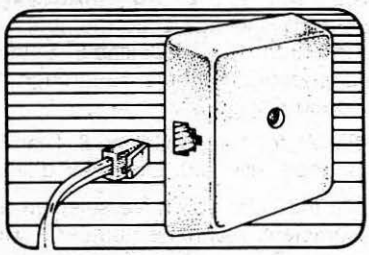
1



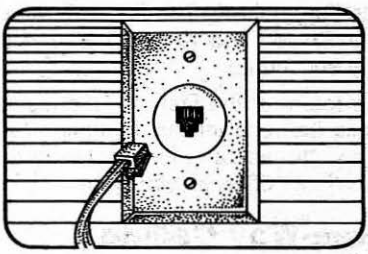
2



3



4



The drawings below show non-standard jacks. You can use these with modular phones by putting an adapter in between. Plug the adapter into the jack, then plug the cord into the adapter.

A wall mounted telephone is shown below To connect, match the holes in back of the phone with the rivets on the wall mounting. Push the phone lightly against the mounting and slide it down into place. To disconnect, slide the phone up to lift it off the rivets, then pull it away from the wall.

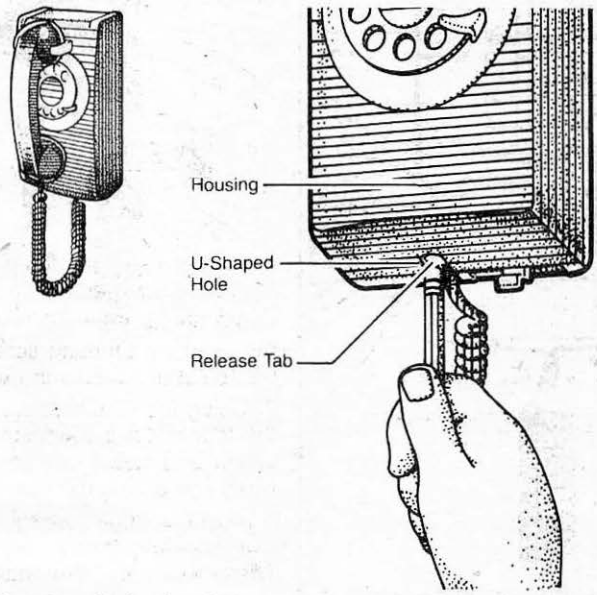
Removing non-modular wall telephones

These instructions are for non-modular wall telephones only. If your wall telephone is modular, please see the preceding page.

Prevent incoming calls by lifting the handset off the hook. You can do this at the wall phone you are removing or at any other phone connected to the same number. Ignore any tones you hear through the handset. You will need a screwdriver and a pair of insulated wirecutters. Follow steps 1-5 below for the type of wall telephone you have. Then follow steps 6-8 for all types of wall phones.

Do not attempt to remove your wall telephone during severe weather conditions, such as thunderstorms.

Steps 1 through 5 for traditional wall telephones (rotary dial)



1. Be sure handset is off the hook.

2. Find the U-shaped hole in the bottom of the wall telephone, where the handset cord enters the wall set.

3. Place a small blunt object, such as a pencil eraser, against the release tab in the U-shaped hole.

4. Press in on the bottom of the housing while pressing up with the eraser on the release tab, and release the housing.

5. Pull the housing toward you, unhook the latch from the spring at the top of the wall set, and remove the housing.

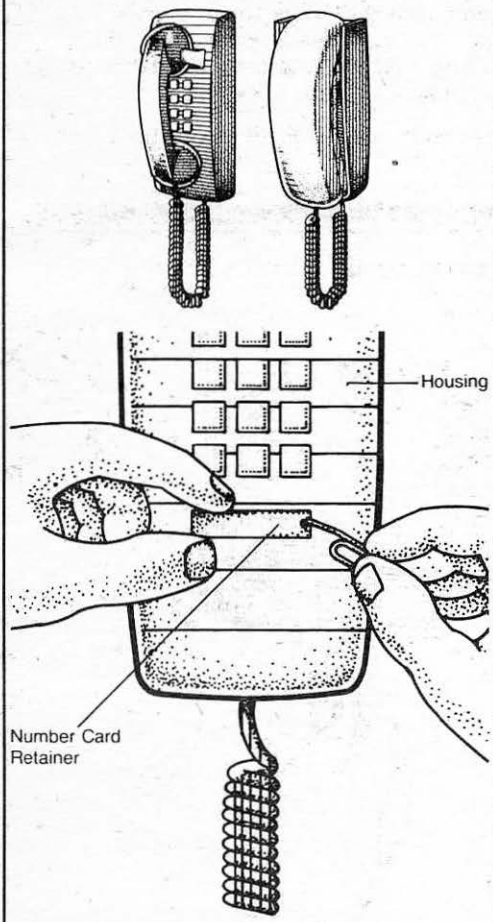
continued►

SERVICES AND EQUIPMENT

Removing non-modular wall telephones

16

Steps 1 through 5 for other wall telephones (push button sets)



1. Be sure handset is off the hook.

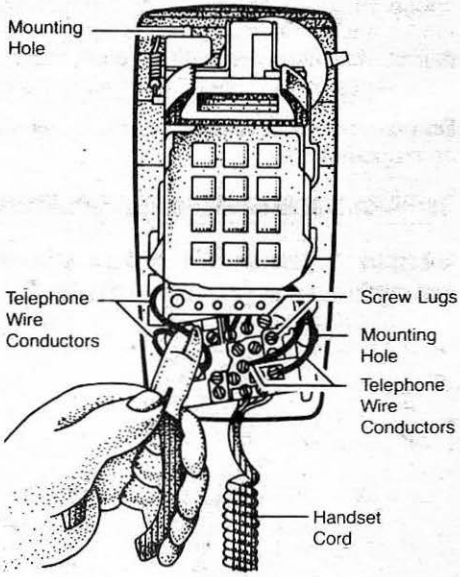
2. Find the small hole on the side of the clear plastic number retainer card.

3. Insert a small pointed object, such as a straightened paper clip, and gently bend outward until the plastic retainer pops out.

4. Remove the paper number card to expose the two screws underneath.

5. Remove these two screws and lift the housing off the base.

Steps 6 through 8 for all wall telephones



6. Find the telephone wires entering the phone. (If you have to remove the base of the phone from the wall to do this, remove the mounting screws that hold the telephone set to the wall.)

7. Using the insulated wirecutters, cut the four colored conductors (red, green, yellow and black) that come from the wires just above the screw lugs.

If your telephone has six conductors, use the wirecutters to cut them, too. These wires are also color-coded;

blue with white band
white with blue band
orange with white band
white with orange band
green with white band
white with green band

8. Remove the mounting screws holding the phone in place, and remove the wall telephone.

Billing & Payment

★ Features about your bill

Your bill from Wisconsin Bell may include charges from other companies
Other companies that provide telephone equipment and/or long distance calling services may arrange with Wisconsin Bell to do their billing for them. If you subscribe to one or more of these companies, their charges will appear in your monthly telephone bill.

Send your payment for the total amount to Wisconsin Bell
For your convenience, continue to make your payments to Wisconsin Bell in the same way you always have. Even though your bill includes charges from one or more other companies, you make one payment for the total amount to Wisconsin Bell.

For questions about your bill, call the appropriate company
Your bill is separated into sections that describe the charges for different types of services and/or equipment. Each section includes the telephone number to call *for each company* if you have questions about that portion of the bill. To help you get answers to your questions most efficiently, be sure to call the appropriate telephone number.

Paying by mail

You may pay your bill by mail or at any of our authorized payment agencies. Remember to include the return payment page with all payments to assist the company to properly credit your account. Return envelopes will be included with the bill for those customers who consistently pay by mail. If the return envelope is not available, address payments to our Payment Center:

Wisconsin Bell, Inc.
845 N. 35th Street, Room 250
Milwaukee, Wis. 53280-0001

You may pay in person at:

Bank of Sturgeon Bay
34 W. Maple
4th and Jefferson

First National Bank
57 N. 3rd
Green Bay Road

Some payment agents may charge a fee for accepting payments.

continued►

Questions about your bill

★ Why does the telephone bill include charges from other companies?
Other companies that provide telephone equipment or long distance calling services may contract with Wisconsin Bell to do their billing for them. These charges appear in separate sections of your bill, along with the name of the company.

★ Who do I pay?
You pay all charges to one company, Wisconsin Bell, Inc.

★ Who do I call with a question about my bill?
Your telephone bill includes separate sections for each of the companies whose charges appear on your bill. Both the name of the company and instructions about the number to call for billing inquiries is presented in each section.

How am I billed?
Charges for your local service are billed one month in advance. Over calls, long distance and telegrams are billed in arrears. It is best to review the bill when you receive it to be sure you understand all the charges.

What should I do about questions or mistakes on my bill?
Call your Service Representative who can answer questions, investigate possible errors and provide information about bills.

When is my bill due?
Your bill payment is due on or before the date indicated on your bill.

What happens if I can't pay my bill on time?
Customers who are unable to pay their bills promptly should contact their Service Representative who will try to work out satisfactory arrangements or a deferred payment agreement.

Disconnection for non-payment
Should a customer be unable to meet the terms of a deferred payment agreement, does not pay money owed to us, refuses to give us a deposit or guarantee, or uses service unlawfully in a way which interferes with the service of others, a written notice explaining our intent to disconnect service will be sent.

The notice will be mailed to a customer five days prior to the scheduled disconnect date. If a written request from a residence subscriber is on file in the local Residence Service Center at the time the disconnect notice is mailed, five day notification will also be sent to your county Department of Health and Social Services.

How can I get service restored if it has been disconnected for nonpayment?
All charges billed for service must be paid before your service can be reconnected. This would include any amount which you may have received on a new bill. You will also have to re-establish your credit and, as a result, we may require an advance payment and/or deposit before reconnecting your service.

If your service has been temporarily denied you may for a payment of $5.30 have your service reconnected if the contract has not been terminated or the order to remove the service has not been completed.

Subsequent to the completion of a discontinuance order, service will be re-established only upon the basis of a new service application and applicable charges.

Rates shown on this page were in effect as of January 1, 1984, are regulated by the Public Service Commission of Wisconsin (PSCW) and are subject to change.

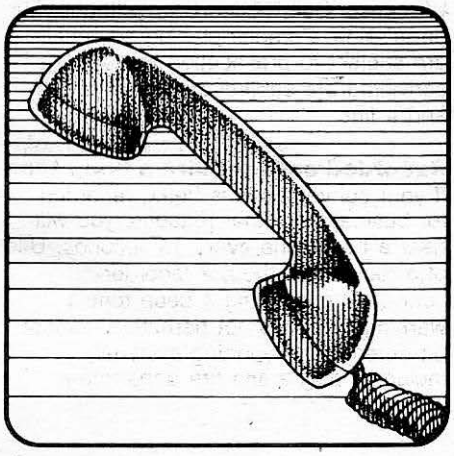
Consumer Rights and Responsibilities

Consumer rights

How to complain
Your Service Representative has a basic responsibility to answer your questions and resolve your problems. If you're not satisfied, feel free to ask for a supervisor. If your problem can't be solved by the supervisor, ask for the manager or higher levels of management.

If you still are not satisfied, you have the right to file a formal or informal complaint with the Public Service Commission of Wisconsin (PSCW), which regulates Wisconsin Bell. The address is:

Public Service Commission of Wisconsin
P.O. Box 7854
Madison, Wisconsin 53707
1 (608) 266-2001



Sturgeon Bay

Tariffs
Intrastate tariffs of Wisconsin Bell which contain rates, rules and regulations governing telephone service are filed with the Public Service Commission of Wisconsin and include rules and regulations governing service outage refunds, deposits, and cancellations of service for a cause. These tariffs are available for inspection or explanation at any of our business offices or at the Public Service Commission, Hill Farms State Office Building, 4802 Sheboygan Avenue, Madison, Wisconsin.

Interstate tariffs filed with the Federal Communications Commission are available for inspection at the Public Office, 740 N. Broadway, Milwaukee, Wisconsin, and the Public Office at 316 W. Washington Ave., Madison, Wisconsin.

Consumer responsibilities

Yield a party line in an emergency
State law requires you to yield a party line immediately when told the line is needed for an emergency. It is also unlawful to take over a party line by stating falsely that the line is needed for an emergency. The penalty for either offense may be a forfeiture not to exceed $1,000.

continued►

Telephone safety

The telephone is one of the safest appliances in your home or office. There are, however, a few situations where a telephone user needs to be cautious.

Use of the telephone near water
The telephone should not be used while you are in a bathtub, shower or pool. Immersion of the telephone or handset in water could cause an electrical shock.

Use of the telephone during an electrical storm
You should avoid using a telephone during an electrical storm in your immediate area: calls of an urgent nature should be brief. Although the telephone industry uses protective measures to limit abnormal electrical surges from entering your home, absolute protection is impossible. There is a remote risk of a dangerous electrical shock from lightning when using the telephone during a nearby electrical storm.

Use of the telephone to report a gas leak
If you think you've found a gas leak, you should not use a telephone in the vicinity of the leak until the leak is repaired. The telephone contains electrical contacts that could generate a tiny spark when you lift the handset and dial. While unlikely, it may be possible for this spark to trigger an explosion if the gas concentration is high enough.

For your protection

Our employees carry company identification cards
For your safety every Wisconsin Bell employee is required to carry an identification card showing his or her name and a photograph. If you have any doubt whether people are from Wisconsin Bell, please ask to see their card.

Fraudulent callers are subject to prosecution
It is illegal for another person to charge long distance calls to your number or Wisconsin Bell Calling Card without your permission. Persons placing such calls are subject to prosecution and if convicted are subject to imprisonment and a fine.

Recorded calls require a beep tone
If your conversation is being recorded for business or other reasons, you will hear a beep tone every 15 seconds. Use of a recorder without a recorder-connector containing a beep tone warning device is not permitted, except on emergency reporting systems, including police and fire department lines.

How to handle obscene or harassing calls
If you receive obscene, harassing or threatening calls, follow these suggestions:

1. **Hang up** at the first obscene word or if the caller doesn't say anything the second time you say "Hello."

2. **Give no information** such as your name and address until the caller has been identified.

3. **Advise your children** to give no information to strangers. If you're not home, they should say "Mother/Father can't come to the phone right now."

4. **If calls persist** call your Residence Service Center or your police department.

Bomb threats
Wisconsin law provides that "whoever intentionally conveys or causes to be conveyed any threat or false information, knowing such to be false, concerning an attempt or alleged attempt being made or to be made to destroy any property by the means of explosives" is subject to a fine of $10,000 or two years imprisonment or both.

How to handle unwanted sales calls
If you do not want to talk with a person selling a product or service by telephone, just say "No, thank you," and hang up.

Telephone observing services
Certain business customers subscribe to Wisconsin Bell service which allows them to monitor business calls between their offices and the public. This monitoring capability is furnished under tariff by Wisconsin Bell. Our tariff provides that under no circumstances may this observing capability be used contrary to tariff or law.

All of our customers to this service have agreed in writing: (1) to inform their employees in writing that calls on certain lines may be subject to observation, (2) to use the observing service only for the purpose of training employees or improving the quality of service rendered by employees, and (3) that telephones subject to monitoring shall have labels affixed so indicating.

Customers may also obtain equipment which provides monitoring capability from vendors other than Wisconsin Bell.

Unlawful wiretapping is subject to prosecution.
It is a crime under federal and state law for any person, including a telephone subscriber, to wiretap or otherwise intercept a telephone call, unless that person has first obtained the consent of one of the parties actually participating in the call. Properly authorized law enforcement officers can engage in interceptions without the consent of either party when proceeding under court orders issued pursuant to applicable provisions of federal or state law. Under federal and state law, the penalty for illegal wiretapping can be imprisonment for five years, a $10,000 fine, or both.

Directory errors and omissions
The Company makes every effort to prevent errors and omissions in its directories. However, should an error occur our liability is limited by our tariffs, approved by the Wisconsin Public Service Commission, to the resulting impairment of the service and in no case shall exceed the charge for the service, excluding message charges, for the period covered by the directory. Errors or omissions in advertising are governed by the terms and conditions of the advertising contract.

Directory Assistance

How to call Directory Assistance

For local numbers dial:

1 + 411

For numbers within the 414 area dial:

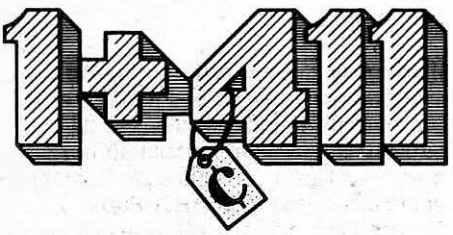
1 + 555-1212

For numbers outside the 414 area dial:

1 + Area Code + 555-1212

For the telephone numbers of businesses and people who have 800 numbers dial:

1 + 800 + 555-1212



Charges for Wisconsin Directory Assistance

Directory Assistance calls within your area code.
Wisconsin Bell customers have a monthly three call allowance per main line for calls to **1-411** or **1-555-1212.** Calls over the allowance cost 25 cents each.

Directory Assistance calls to other area codes in Wisconsin
Wisconsin customers have a monthly three call allowance per main line for calls to Directory Assistance in either of Wisconsin's other two area codes. Calls over the allowance are billed by ATT Communications at the rate of 75 cents each.

Directory Assistance calls placed through "**O**" Operator cost $.10 each; in addition, an Operator service charge applies as follows:
Wisconsin Bell Calling Card call—$.55
All others — $1.55

Charges will apply on requests for numbers which are unlisted or which the Operator cannot find.

Two requests are allowed on each call.

Directory Assistance charges do not apply to:
Calls made from coin telephones.

Calls placed by customers certified by their physicians to be physically or visually handicapped and unable to use the telephone directory.

Calls placed from hospitals that equip patient rooms with telephone service.

Rates shown on this page were in effect as of January 1, 1984, are regulated by the Public Service Commission of Wisconsin (PSCW) and are subject to change.

Five ways to save on Directory Assistance charges

1. Write down the numbers that you call frequently. You may wish to circle or underline a number in your directory to quickly find the number a second time.

2. To get the telephone number of someone who has recently moved, call the old number. A number reference generally is provided.

3. If you need two numbers, request them both at the same time. Once a call to Directory Assistance has been placed, a second listing is given at no charge.

4. You can save the cost of a second call to Directory Assistance if you can supply complete information the first time. Provide the exact location, full name with accurate spelling and whether it is a residence, business or government type of listing.

5. If you are not sure of the name or spelling of a restaurant, theater, store or business, check the Yellow Pages under the appropriate heading.

How to obtain directories
Additional directories or directories for other areas may be obtained by calling the Residence Service Center. A charge applies for directories outside of your area code.

Personal Directory
A personal directory provides a handy place for keeping your personal list of frequently called local and out-of-town numbers. To get one free, just call the Residence Service Center.

Errors in directory listings
If your listing is incorrect or omitted from this directory, please call the Residence Service Center. We will correct our records to assure that such an error or omission does not recur.

How to find numbers in the directory

Abbreviations
Certain abbreviations are listed as if the word were spelled out. For example, "St. James Hospital" is alphabetized as "Saint James Hospital."

Sainpolis Jane
St. James Hospital
Sais John
Sala E C

Alternate listings
"John James Company" might appear as "James John Company."

James John Co
Jensen A R
John James Co
Johnson C L

Ampersands (&), hyphens (-)
Look up the listing as if it were two or more separate words.

King & Co
King John L
King-Masters Co
Kingston Paul

Apostrophes
If you want the number for "Bob's Place," look for it as "Bobs Place." Also, what you may think of as "Smith's Toy Shop" may actually be listed as "Smith Toy Shop."

Bob Shop
Bobs Barber Shop
Bob's Place

continued►

Government listings follow name of state, county or city
For federal agencies look under "United States Government." State, county and city government listings are alphabetical.

(name of city), City of
(name of county), County of
Wisconsin, State of

Initials precede first names
For example, "Jones, A" comes before "Jones, Albert."

Jones A
Jones A A
Jones Albert

Letters in names
Names consisting of all capital letters such as radio and TV stations are listed at the beginning of the section.

W Ace Sales
WABD
W & W appliance
Wabash D

When letters precede a full name, also check the beginning of the section. For example, "A-1 Garage Inc" would be among the first listings in the "A" section.

A-1 Garage Inc
A & M Sandwich Shop

Numbers
If used as names, numbers are alphabetized as if the word were spelled out. For example, to find "21 Cleaners" look as though it were listed under "Twenty-One Cleaners."

Twelves M A
21 Cleaners
Twenty-One Market Bldg
Two by Six
Twohy R M

Prefixes
Names with prefixes are listed as a single word and alphabetized. For example, "MacNeil" follows "Macnab" and "Macoy" follows "MacDonald."

Mac Tool Sales
MacDonald J B
Mac's Auto Inc
McDonald W E
Mead Albert

Spelling variations
Cross references are sometimes shown for names which are pronounced the same but spelled differently. Shaffer for example can appear as "Schaefer," "Schafer," "Schaffer," or "Shafer."

SHAFFER — See also
Schaefer, Schafer,
Schaffer, Shafer

"The" usually follows a company name
For example, "The Brown Fabric Company" would normally be listed as "Brown Fabric Company The."

Brown F D
Brown Fabric Co The
Brown Frank
Browne B A

Local Calling

Your local calling area

Calls from **STURGEON BAY** to any place shown on map are local. To call these areas, simply dial the **listed number.**

Calling another party on your line
Dial a code number (which you may obtain from Repair Service) and hang up. Your bell will then start ringing. When it stops, pick up your receiver and start your conversation. If your party does not answer, lift the receiver to stop the ringing.

Rates shown on this page were in effect as of January 1, 1984, are regulated by the Public Service Commission of Wisconsin (PSCW) and are subject to change.

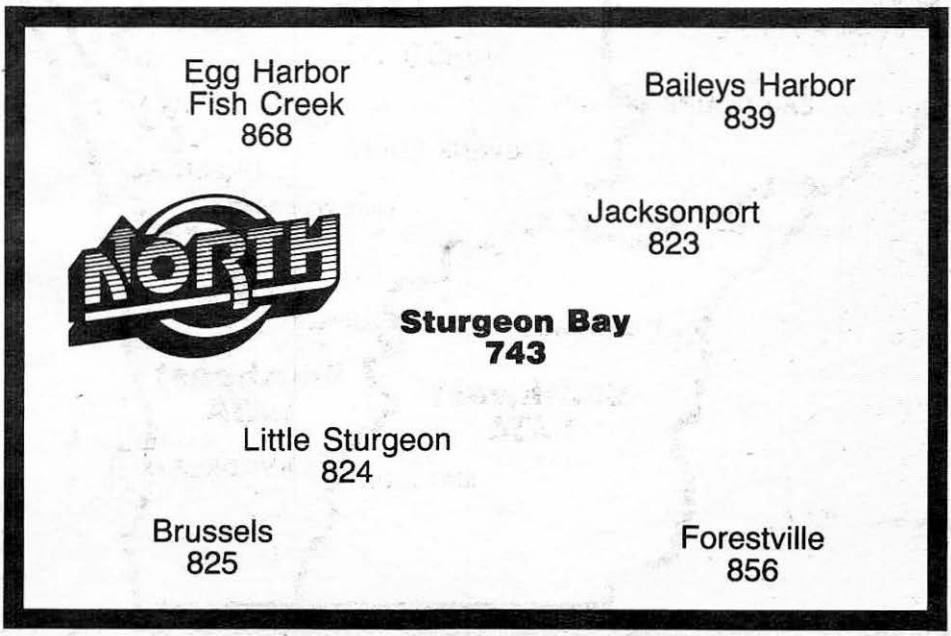
Calls outside your local area are long distance

To dial direct
Within area **414**, dial **"1"** + the seven numerals of the listed number.

Outside area **414**, dial **"1"** + area code + the seven numerals of the listed number.

Operator plus service
See Page **31**

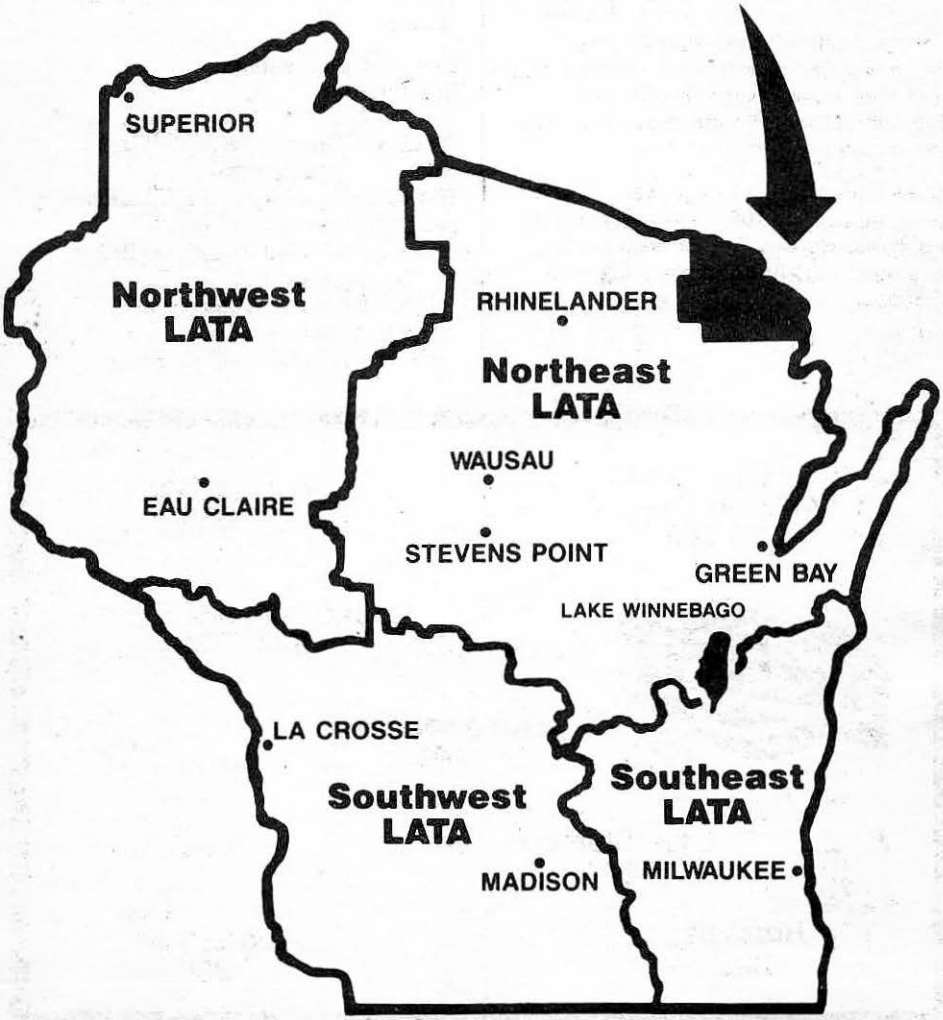
Optional Operator-assisted local calls . . . $.10/call
The following charges are in addition to the Operator-assisted charge:
Customer-dialed Wisconsin Bell Calling Card call — $.55
Operator-assisted station-to-station call — $1.55
Person-to-person call — $3.15



continued►

Wisconsin Bell's Tel-A-Visit Service applies only to communities within your LATA.

This small portion of northeastern Wisconsin is included in a Northern Michigan LATA (See page 30.)



Sturgeon Bay

Local Access Transport Area★ (LATA)

LATA
(Local Access Transport Area)

The geographic area within which Wisconsin Bell carries long distance calls is known as a LATA. We also provide you with access to other long distance companies that will carry your calls from your LATA to other LATAs, both in Wisconsin and in other states. You will continue to dial all long distance calls exactly as you always have. The only change will be in how you are billed for each call. When you place a call to another LATA the rates of another long distance carrier will apply to the call. Some carriers may elect to have Wisconsin Bell bill you for their services, while others may bill you directly. **LATAs do not affect local calling areas.**

Most Wisconsin communities are within Wisconsin LATAs. The following are exceptions.
Aurora, Fairplay, Florence, Goodman, Mont du Lac, Niagara, North Antioch, North Apple River, North Land O' Lakes, North Phelps, North Warren, North Winslow, Pembine and Spread Eagle.

If you want to know the LATA for a place not listed, dial your Operator.

Calls to these communities are not included in Wisconsin Bell's Tel-A-Visit Service plan.

Dialing direct costs less

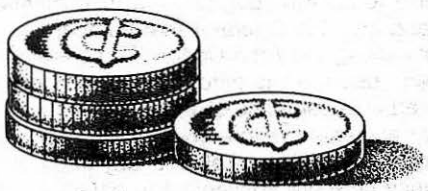
Wisconsin Bell long distance rates are lowest when you dial the call yourself and speak with anyone who answers.

To place a direct-dialed call:
within the **414** area, dial

1 + the telephone number

outside the **414** area, dial

1 + the Area Code + the telephone number



Area Codes
Area Codes for some cities are listed on page 39. For cities not on the list, dial your "O" Operator.

Credit for poor connections, cutoffs or wrong numbers
When you dial long distance with Wisconsin Bell and reach a wrong number, have a poor connection or other problems, hang up and dial "**O**" (Operator) right away. Explain what happened so the Operator can arrange for the proper credit. The faster the problem is reported, the easier it will be to give you credit.

Trouble dialing?
If you have trouble dialing directly with Wisconsin Bell, call the Operator and explain the difficulty. The call will be placed for you, and you will be charged at the direct-dialed rate.

Station-to-Station
Call station-to-station if you wish to talk with anyone who answers. Rates are lower than person-to-person. Charging begins when the called telephone is answered.

Operator-assisted calls cost more

Long distance calls requiring an Operator include an additional charge. Calls placed from hotels and coin telephones as well as the types of calls listed on the next page are all Operator-assisted calls.

To place an Operator-assisted call:
within the **414** area, dial

0 + the telephone number

outside the **414** area, dial

0 + the Area Code + the telephone number

continued►

Wisconsin Bell Calling Card

If you have a Wisconsin Bell Calling Card, you can have long distance calls charged to your regular monthly telephone bill. Calling Cards may be obtained from your Residence Service Center at no charge.

Here's how to use your card:
Rotary Dial Telephones — Dial "O" and the number you wish to reach. When the Operator comes on the line, give your Calling Card number.

Push button telephones — Touch Tone Service allows you to take advantage of these special features that make calls fast and easy without Operator assistance:

Mechanized Calling

Dial "O" and the number you wish to reach. Wait for the tone, then dial your Calling Card number. With Mechanized Calling there is no need to reveal your Calling Card number in the presence of others.

Sequence calling

If you are making more than one Calling Card call you don't have to hang up between calls. Just press the "#" button and dial another telephone number (including the Area Code if needed). After the first call, each call in sequence will be billed to your Calling Card number.

Special 4-digit billing to your Calling Card number

If you are calling the telephone number assigned to your Calling Card, and that number appears as part of your Calling Card number, you can bill the call by keying in only the last four digits of your Calling Card number. Simply dial "O" plus the 7-digit number. When you hear the tone, just key in the last four digits of your Calling Card number.

Types of Operator-assisted calls

Person-to-person calls

Call person-to-person when you wish to reach a particular person or extension number. Dial the call and when the Operator comes on the line, say you are making a person-to-person call and give the name of the person you want to talk to. The Operator will leave the line when the person you're calling has answered the telephone.

Third-number calls

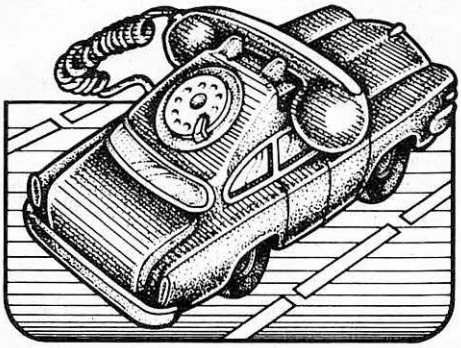
You may have long distance charges billed to an authorized third telephone number. Dial the call and when the Operator comes on the line, say you'd like to charge your call to a third number and give the Operator that number including the Area Code. The Operator will then call the third number to obtain verbal acceptance of the billing arrangement before your call is completed. If you call this way often, it may be more convenient to obtain a Wisconsin Bell Calling Card.

Time and charges

When placing a long distance call with Wisconsin Bell you may ask the Operator to tell you the length of time you talked and how much it cost. Dial the call and when the Operator comes on the line, say that you will want time and charges when the call is completed

Collect calls

You may call collect if the person or firm you are calling agrees to pay the charges. Dial the call and when the Operator comes on the line, say you're placing a collect call and give your name. The Operator will leave the line when the person you've called accepts the charges. Wisconsin Bell Calling Card is a convenient alternative to calling collect.



Mobile calls-air-land-marine
You can make local and long distance calls to automobiles, trucks, aircraft, boats and ships. Ask the Operator for the Mobile, Marine, or High Seas Operator. For information on the other Communications Common Carriers, consult the Yellow pages under "Paging & Signaling," and "Radiotelephone Communications" headings.

Conference Calls
You can talk with several people in different cities at the same time by dialing the Operator and saying you wish to make a conference call. Give the Operator the names and long distance telephone numbers of the people you want to talk to. You may want to arrange a calling time in advance.

Other types of calls

800 Service
Long distance calls can be made without charge when calling those businesses who have 800 Service numbers. They offer this service to customers calling from specific locations.

To call an 800 number, dial:

1 + 800 + the telephone number

You can find out if a business that you wish to call has an 800 number by dialing: **1 800 555-1212 (Toll Free)**

★Optional Long Distance Services — Northeast LATA

Tel-A-Visit Service*
Includes one hour of calling with additional usage billed in one-tenth hours (6 minutes) — available only to one and two party residence customers — covers calls you dial yourself, without Operator assistance, anywhere within your LATA during designated hours. (See page 27 for a explanation of LATA.)

Charges for Tel-A-Visit service part-time messages are based upon the duration of the call in each rate period, rather than upon the rate in effect when the call is initiated.

Basic Tel-A-Visit Service
Sunday through Friday
11:30 p.m. up to 7 a.m. the following day
Saturday
12:00 noon up to 7 a.m. the following day
Sunday
7 a.m. up to 5 p.m.

Initial one hour (monthly) **$2.90**
Overtime charge — for each additional 6 minutes **$.29.**

Expanded Tel-A-Visit Service
Sunday through Thursday
10 p.m. up to 8 a.m. the following day
Friday
5 p.m. up to 8 a.m. the following day
Saturday
8 a.m. to 8 a.m. the following day
Sunday
8 a.m. up to 7 p.m.

Initial one hour (monthly) **$5.75**
Overtime charge — for each additional 6 minutes **$.58.**

Contact your Service Representative for more information.

*Service mark of Wisconsin Bell, Inc.

Call-Pak 26
Includes long distance calls you dial yourself, without Operator assistance, to exchanges in the LATA within 26 miles of your exchange.

Full Time — 24 hours per day seven days a week, one hour (monthly) **$9.00**
overtime charge — for each additional 6 minutes **$.90.**

Part Time — all hours except 8 a.m. to 5 p.m. weekdays, one hour (monthly) **$5.00**
overtime charge — for each additional 6 minutes **$.50.**

Contact your Service Representative for more information.

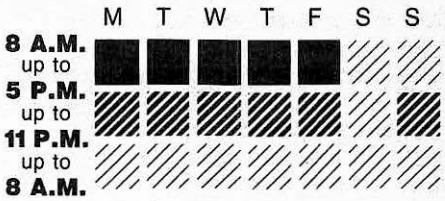
Rates shown on this page were in effect as of January 1, 1984, are regulated by the Public Service Commission of Wisconsin (PSCW) and are subject to change.

Rates within your Northeastern Wisconsin LATA*

Lowest rates — dial-direct one-minute rates

Dial-direct calls are those calls completed from a residence or business phone without Operator assistance. Dial-direct rates also apply on calls placed with an Operator from a residence or business phone where dial-direct facilities are not available. The initial rate period is **one minute** any time of day or night. Initial charges are based upon rates in effect at the time of connection. Charges for additional minutes change when the call continues into a new time period.

Additional savings apply evenings, nights and weekends.



Dial-direct

Rates from other places in this directory may vary slightly

From **Sturgeon Bay** to:

	Weekday full rate		Evening 35% discount		Night & weekend 60% discount	
	First minute	Each additional minute	First minute	Each additional minute	First minute	Each additional minute
Algoma	.29	.15	.19	.10	.12	.06
Appleton	.48	.29	.31	.19	.19	.12
Casco	.34	.17	.22	.11	.14	.07
Green Bay	.43	.24	.28	.16	.17	.10
Kewaunee	.39	.21	.25	.14	.16	.08
Marinette	.34	.17	.22	.11	.14	.07
Oshkosh	.50	.32	.33	.21	.20	.13
Wausau	.52	.34	.34	.22	.21	.14

Rates for specific holidays

New Year's Day/July 4th/Labor Day/Thanksgiving/Christmas Day. The evening rate applies all day on dial-direct calls unless a lower rate would normally apply (nights and weekends).

If any of these holidays fall on a weekend, but are legally celebrated on another day, the weekday rate (not the 35% holiday discount) will apply between 8 a.m. and 5 p.m. of the "legally" celebrated day.

Rates shown are approximated due to rounding.

Charges for calls may be less than the total you determine when you use the rate tables above.

*See page 27 for explanation of LATA.

Rates shown on this page were in effect as of January 1, 1984, are regulated by the Public Service Commission of Wisconsin (PSCW) and are subject to change. If you have questions about current long distance rates, call the Operator.

continued►

LONG DISTANCE CALLING

Rates within your Northeastern Wisconsin LATA*

Rates — Wisconsin Telephone Calling Card (credit card) calls

Customer-dialed Calling Card calls always cost more than the dial-direct rate. An Operator assistance charge of 55¢ per call applies to all customer-dialed Calling Card calls. This charge, which is never discounted, is in addition to the dial-direct rates. (If the Operator dials a Calling Card call, an Operator assistance charge of $1.55 applies.)

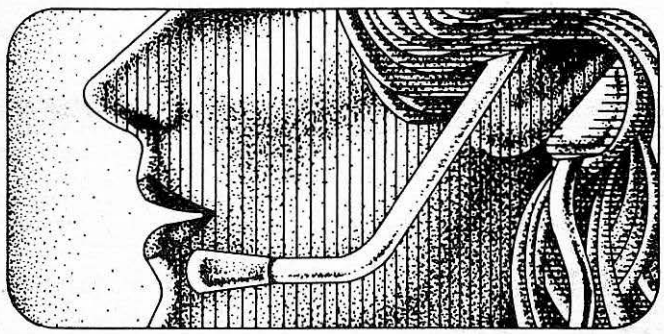
Rates — Operator-assisted calls

Operator assistance charges apply to person-to-person, third number billed, public (coin) phone, collect, requests for time and charges and certain hotel guest calls. These charges, which are not subject to discount, are in addition to the dial-direct rates.

The first minute and all additional minutes are charged at dial-direct rates. These additional minute rates change when the call continues into a new time period.

The Operator Assistance Charges are:

Customer Dialed Wisconsin Bell Calling Card	$ .55/call
Operator Station-to-Station Third number billed, public (coin) phone, collect, time and charges, certain hotel guest calls and Operator dialed Calling Card Calls	$1.55/call
Operator Person-to-Person	$3.15/call



Federal Excise Tax and any applicable state and local taxes are not included in rates shown on these pages.

The charge for the first minute is based upon the rate in effect at the time of connection at the calling point. Effective August 1, 1982, the charges for additional minutes change when the call continues into a different time period.

Rates shown on this page were in effect as of January 1, 1984, are regulated by the Public Service Commission of Wisconsin (PSCW) and are subject to change. If you have questions about current long distance rates, call the Operator.

*See page 27 for explanation of LATA.

Area Codes and Time Zones

Wisconsin Area Codes

Each area has a three-digit Area Code. The Area Code for this directory is indicated on the front cover and on most telephones.

The Area Code of the telephone you are calling should be dialed or given to the Operator if different from the Area Code of the telephone you are using. It should not be used if both Area Codes are the same.

When you give someone your telephone number, include your Area Code — it might be needed to place a call to you.

Consult Area Code lists on pages that follow for specific cities not indicated on these maps.

If you want the Area Code for a place not listed, dial your Operator.

INTERNATIONAL CALLING

Dialing instructions

International calling is more convenient today than ever before. Calls can now be dialed to many overseas countries by customers throughout the United States. To place an international call:

- Dial the international Access Code 011
- The Country Code
- The City Code
- The local number
- The "#" button if you have a touch-tone telephone. This will speed your call along.

For Example:
To place a dialed direct call to London, England, here's what you would dial:

International Access Code	Country Code	City Code

011 + 44 + 1 + Local Number

After dialing any international call, allow at least 45 seconds for the ringing to start.

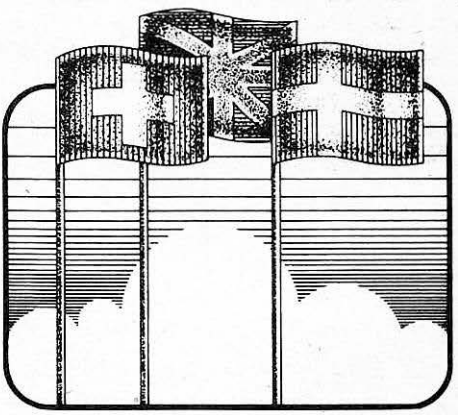
Operator-assisted calls
Person-to-person, collect,* calling card or billed to a third number calls, requires Operator Assistance. Use the International Access code "**01**" instead of "**011**."

*Certain countries will not accept collect calls.

Additional assistance or information

Dial "**O**" (Operator) if you need assistance:

1. To call countries that cannot be dialed.
2. To get telephone numbers.
3. For help on completing a call.
4. To get credit if you reach a wrong number.
5. To get City Codes that are not listed.



continued►

Calls to Canada, Puerto Rico, the U.S. Virgin Islands and most dial points in the Caribbean/Atlantic Region

These calls can be dialed the same as long distance calls within the Continental United States. See the Long Distance section in this guide.

Call "O" (Operator) for rates to Canada, Mexico, Puerto Rico and the U.S. Virgin Islands.

To Call Mexico

If International Dialing is available in your area, dial 011 + 52 + City Code + Local Number.

If International Dialing is not available in your area, you can still dial calls to Mexico City and Northwest Mexico:

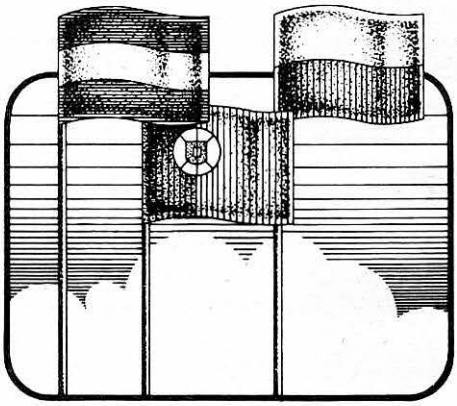
Mexico City, dial 90 + 5 (City Code) + Local Number

Northwest Mexico, dial 70 + City Code (2 or 3 digits beginning with 6) + Local Number.

For calls to other points in Mexico, dial "O" (Operator).

Wisconsin Bell Calling Card calls

You can make a call from any phone in the U.S. to any place in the world and charge it to your Calling Card. In many cases you can also place Calling Card calls from overseas places to the U.S., (instructions are on the back of the Calling Card). Your Calling Card can only be used to call back to the U.S. It cannot be used for calls between foreign countries.



How to use this chart:

The bold number following the country name is the "Country Code."

Bold numbers beside cities are "City Codes."

The numbers to the right of the country name are the time difference and world region.

For example: TD *WR*
Argentina 54 +3 *7*
Buenos Aires **1**

- The Country Code is **54.**
- It is three hours ahead of Central Standard Time.
- It is in world region **7**, which is South America.
- The City Code for Buenos Aires is **1.**

Money Saving Tips

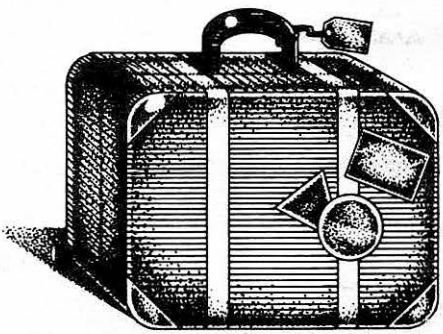
Change everything at once
Every time you have service changed, certain one-time charges apply. Save money by having all work done at one time.

Use a Wisconsin Bell Calling Card when you are away from home
Next to dialing direct, a Wisconsin Bell Calling Card is the most economical way to make a long distance call. You can get a free Calling Card by calling your Service Representative.

Letter of guarantee instead of deposit
You have the option of providing Wisconsin Bell with a letter from a person or firm with established telephone credit willing to guarantee payment of your bills. This can be used instead of a deposit.

Schedule and plan your calls
If you call someone frequently, try to set a specific time when he or she will be there to receive your long distance call. That way, you can always call station-to-station and save. Plan the things you want to say to save calling time.

Make special arrangements when you go on vacation
If you are going to be gone for one month or more, call your Service Representative to have your phone put on vacation rate service. The vacation rate is lower than most regular rates and may save you money, although there is a service charge. Your calls may be referred to another number while you are away.



★ Do-it-yourself inside wiring
To save time and money, you can install, add or change the location of a phone. Kits and other equipment are available from retail suppliers. For additional information, look in the Yellow Pages under "Telephone Equipment & Systems" headings.

Call during bargain times
Rates on dial-direct Wisconsin Bell long distance calls are lower during evening, night and weekend hours. Also, take advantage of holiday rates on New Year's Day, July 4th, Labor Day, Thanksgiving and Christmas Day.

Look in the book
You can avoid Directory Assistance charges by looking up your own numbers in the directory. Also, jot down frequently called numbers and keep them next to your telephone.

continued►

Credit for poor connections, cutoffs or wrong numbers
When you dial long distance with Wisconsin Bell and reach a wrong number, have a poor connection or other problems, hang up and dial "**O**" (Operator) right away. Explain what happened so the Operator can arrange for the proper credit. The faster the problem is reported, the easier it will be to give you credit.

If you are billed for a Wisconsin Bell long distance call that you did not make, call your Service Representative.

★ Ask for coin phone refund
If one of our public (coin) phones collects your money but does not complete your call, report it by dialing Repair Service from another phone. We'll see that the phone gets repaired and mail you a refund.

Save money on basic service
Choose telephone service that is best for you. See Page 8. A plan with unmeasured service is no bargain if you don't make many local calls. Likewise, a measured service plan with a low basic charge but extra charges for calls over your allowance will not save you money if you make many calls. Your Service Representative can help you pick out what best matches your budget and calling needs.

Shopping Tip:

Careful shopping during "White Sales" can pay off in dollar savings. You will find "seconds" and "irregulars" at greatly reduced prices. The flaw may be size, color or in the weave. It is usually minor and should not affect wear.

Shopping Tip:

When planning an addition to your house, make sure you hire a reputable contractor whose local references you can check. Explain carefully what you want done and get an estimate. When a lot of money is involved, it's best to get several estimates. Then have a lawyer draw up a contract specifying materials, start and finishing dates, etc. Make sure you and your contractor agree on terms. And keep your copy of the contract.

Shopping Tip:

Careful shopping during "White Sales" can pay off in dollar savings. You will find "seconds" and "irregulars" at greatly reduced prices. The flaw may be size, color or in the weave. It is usually minor and should not affect wear.

Shopping Tip:

Careful shopping during "White Sales" can pay off in dollar savings. You will find "seconds" and "irregulars" at greatly reduced prices. The flaw may be size, color or in the weave. It is usually minor and should not affect wear.

HOW TO PAN FRY FISH

The secret of deliciously browned, pan broiled fish is *dry heat;* in other words, use very little fat in the pan. Some fish, notably whitefish and trout, are fatter than others; when cooking these fish, pour fat from the pan as it accumulates. Other fish, less fat, may be improved by basting with melted fat or a sauce. One favorite is made by mixing 1 tablespoon lemon juice with ½ cup cream, spreading on fish two or three times while cooking.

If you need to return merchandise, always remember to return it to the right department of the store where you bought it. Do not return merchandise near closing time or during rush hours, when personnel are busiest. If the person you're speaking with cannot answer your questions to your satisfaction, ask to see someone with more authority. And when leaving an item for repair, always get a receipt.

Buyers Tip:

Want to be sure of getting the right product before you buy? Then turn to the heading in these Yellow Pages that describes what you want . . . under which you'll find someone to help you.

Shopping Tip:

Careful shopping during "White Sales" can pay off in dollar savings. You will find "seconds" and "irregulars" at greatly reduced prices. The flaw may be size, color or in the weave. It is usually minor and should not affect wear.

Whether in 1942 or now here's how to find the telephone number of a business firm you have in mind—

1–Locate the heading descriptive of the general type of business. This will be found in its regular alphabetical order.

2–Then locate the desired firm and telephone number by examining the listings under the heading.

If you need to return merchandise, always remember to return it to the right department of the store where you bought it. Do not return merchandise near closing time or during rush hours, when personnel are busiest. If the person you're speaking with cannot answer your questions to your satisfaction, ask to see someone with more authority. And when leaving an item for repair, always get a receipt.

Consumer Tip:

Careful shopping during "White Sales" can pay off in dollar savings. You will find "seconds" and "irregulars" at greatly reduced prices. The flaw may be size, color or in the weave. It is usually minor and should not affect wear.

Consumer Tip:

Careful shopping during "White Sales" can pay off in dollar savings. You will find "seconds" and "irregulars" at greatly reduced prices. The flaw may be size, color or in the weave. It is usually minor and should not affect wear.

Bell Yellow Pages

Call ahead
for Reservations

Since 1877 there have been introduced 53 types and styles of receivers and 73 types and styles of transmitters. Of the 12,000,000 telephone receivers and transmitters owned by the Bell Company January 1, 1914, none were in use prior to 1902, while the average are less than five years old. Taken from "Telephone Service of Today the Creation of the Bell Co"—Theo. N. Vail, Pres.

"WE SELL THE BEST & SERVICE THE REST"

Before you sign any contract . . . ask what happens if you miss a payment. Will the entire balance be demanded? Will the seller repossess the item? Finally, NEVER sign a contract with blank spaces; if the blank does not apply, draw a line through it. And be sure to get a copy of the contract when you sign.

On the cover: "Complementary Duo," a watercolor painting by Diane Balsley, Milwaukee, is the third in a series of directory covers featuring Wisconsin artists. The series is a cooperative effort between Wisconsin Telephone and the Wisconsin Arts Board, the state agency responsible for developing and supporting Wisconsin's arts. This cover art was selected from over 250 works submitted by 45 artists. The artworks were gathered with the assistance of the Wisconsin Arts Board. The final selection was made by Wisconsin Telephone.

The following comments by Ms. Balsley provide an insight on the cover art: "My work is concerned with the variations possible and available in nature such as seasonal changes and the changes during a single day (light to dark contrasts). Nature provides an unending amount of information and material which to me parallels the old adage 'you learn something new everyday.'"
